DETAILED ACTION

Allowable Subject Matter

1. Claims 1-19 are allowable over prior art.
2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a method and apparatus that efficiently allocates memory when switching between audio and video on a DVD player. Independent claims identify the uniquely distinct feature, "copying the current video frame to a predetermined second portion of the memory." The closest prior art, Mori et al. (US Pat. No. 6,219,488) fails to anticipate or render to the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
